Are you parenting or caring for a child under the age of 12? Do you wish to turn your child's challenging behaviors into learning opportunities? Do you want to bring more connection and less power struggles? Or, are you interested in learning effective parenting tools that encourage your child to become responsible, respectful and contributing member of the family?

This 4 week experiential course is for you!

Based on the work of bestselling author Dr. Jane Nelsen, you will learn many of the Positive Discipline tools setting base to a relationship that invites mutual respect, encouragement, trust and connection. You will also have the opportunity to get specific help with real challenges through the unique Parents Helping Parents Problem Solving Steps process. This workshop is ideal for those who want to fully understand and be able to incorporate Positive Discipline model into their lives.
