Happy New Year!

The students were excited to get back to school to see their friends. This week is an immersion week. It is the week in between work cycles. This time provides an opportunity for students to catch up on work. It also is a time for some special activities. This week we visited the land lab, had a presentation from a former Center student about the dangers of vaping, had a presentation from Planned Parenthood, and had a Google Day.

Jan. 16 Follow the Child
Jan. 17 Spelling Test 8
Jan. 17 FELT
